Join the debate about
recreation in the New Forest

Call for views consultation
19 June to 13 August 2017

Some big issues are facing the New Forest and the organisations with the main remit for both protecting the National Park and enabling people to enjoy it need your help to:

- **Provide** the best recreational experience for local people and our visitors
- **Protect** the very thing people come to see – the spectacular, yet fragile landscape which is a haven for many rare wildlife species
- **Ensure** limited resources are spent wisely.

Help us update the 2010 Recreation Management Strategy and prioritise tasks to manage outdoor recreation across the whole of the New Forest and surrounding areas.

This 'call for views' is the first stage, to be followed by further public consultation on proposed priorities next year.

Have your say

Complete the online survey:
